 Healthy Soils Program	• https://www.cdfa.ca.gov/oefi/healthysoils/BlockGrantProgram.html • Promotes the development of healthy soils on California's farmlands and ranchlands. • Organizations apply to be block grant recipients and those that are awarded will then solicit grower projects/applications. • (https://www.cdfa.ca.gov/oefi/healthysoils/docs/HSP_Block_Grant_2023AwardedProjects.pdf) • 3-year grant term • Practices include: compost, cover crops, hedgerows, conservation cover, range planting, etc. • HSP practice list and guidelines Reimbursement based: Grower implements practice, documents it through photos and is then reimbursed. CDFA determines reimbursement rate for each practice vs. reimbursing based on receipts.	**Currently closed but expected to reopen late 2026**
Zero Foodprint	• **Can sign up for their newsletter to find out about funding opportunities** https://www.zerofoodprint.org/newsletter • Offer 2 types of grants: Compost and Restore (covers conservation practices such as hedgerows, etc) https://www.zerofoodprint.org/apply • Compost - - Offers discount on compost - Rebates of $5-$15/ton - Rebate is based on quantity purchased - Do not cover cost of delivery or spreading - Compost must be purchased from a facility on Approved Vendor's List. • Restore grant – **closes April 7th, 2026**	**Compost connector grants are currently open.**
